Surpassing Performance

Surpassing Performance

Expanded Linearity and Enhanced Performance

Advanced counting technology and dynamic tracking technology expands the linearity and enhances accuracy significantly. Robust signal frequency analysis method minimizes interruption and delivers accurate PLT counting.

Superior Reagents, Quality Controls and Calibrators

High quality original reagents, calibrators and controls offer a complete system for our users. Cyanide free reagents allow laboratories to meet necessary environmental regulations. Complete traceability system ensures closest consistency with standard methods.

High Quality Design

New internal structural design separates electronic components from the fluidic system, decreasing interference while at the same time allowing for easier maintenance.
